Scope of Journal
The American Journal of Physiology-Lung Cellular and Molecular Physiology is your comprehensive resource for the most exciting new findings in respiratory physiology.

AJP-Lung Cellular and Molecular Physiology covers all areas of respiratory physiology, including:

- **original theoretical and research papers** dealing with molecular, cellular, and morphological aspects of normal and abnormal function of cells and components of the respiratory system
- **specific coverage of gas exchange and metabolic control at a cellular level, regulatory and informational molecules, gene expression, macromolecules, cell-to-cell motility, secretory mechanisms, membrane function, and the response of the respiratory system and its components to the environment**

Authors are required to submit papers online at [www.apscentral.org](http://www.apscentral.org).

Reader & Author Benefits

- **Fully searchable text, including PubMed**
- **Rich color and sharp resolution of figures**
- **Editor’s Home Page at www.the-aps.org/publications/ajplung**
- **Access to the extensive collection of back issues available online 12 months after publication**
- **FREE e-mail notification of new content as it becomes available**
- **Manuscripts online within days of acceptance**
- **Perpetual/Electronic Archiving of the LOCKSS and CLOCKSS systems preserves the electronic content of all APS journals**

Authors can choose to pay a fee on top of regular author fees and have their article made free immediately ($2,000 for research articles and $3,000 for review articles).
