The consolidated *American Journal of Physiology (AJP)* ranks as one of the most frequently cited publications among all physiology journals listed in the Journal Citation Index. Published in two monthly volumes by the American Physiological Society, the consolidated AJP brings you approximately 2,600 articles encompassing over 21,000 pages annually.

The consolidated edition of the *AJP* provides comprehensive coverage of the latest research published in these important specialty journals:

- **Cell Physiology**
- **Endocrinology and Metabolism**
- **Gastrointestinal and Liver Physiology**
- **Heart and Circulatory Physiology**
- **Lung Cellular and Molecular Physiology**
- **Regulatory, Integrative and Comparative Physiology**
- **Renal Physiology**

As your comprehensive source for the full spectrum of current physiological research at a single low subscription price, the consolidated *AJP* is an unbeatable value.

The Advertising Network for the Life Sciences

Need to promote open positions, fellowship opportunities, programs, or conferences in physiology?

Advertise in the publications of the American Physiological Society (APS). APS titles include:
• The American Journal of Physiology Consolidated & Specialty Sections
• Physiology and the APS newsetter The Physiologist
• Journal of Applied Physiology and The Journal of Neurophysiology
• Physiological Genomics--Now Online Only
• APS e-News Update

Advertising Benefits
• Advertise to research investigators, clinicians, educators, and information specialists in all disciplines of physiology.
• Advertise in the publications that are sent to the APS 10,000+ membership.
• Some issues featured at high attendance meetings like Society for Neuroscience and Experimental Biology annual meetings.
• Product and recruitment advertising are accepted. Email ads and print/online ad design are available.

APS Members are individuals worldwide whose work focuses on a wide variety of disciplines devoted to human and animal health and function—including systems biology, genomics, translational research and all other life sciences.

**These members possess advanced degrees** (Ph.D., D.V.M., M.D., etc.). However, individuals who hold a masters degree will be considered on a case-by-case basis. The majority of this international membership hold doctoral degrees in physiology, medicine, or other health professions; and they are employed in universities, hospitals, industrial organizations, medical schools, private foundations, and government.

APS also has **Student** and **Affiliate** members. Visit our web site at www.the-aps.org for more information and a detailed list of membership benefits.
